

Hamed Jafarinejad

Frontend Developer

jafary91.itsu@gmail.com | [LinkedIn](#) | [GitHub](#) | +98 9100583682 | Tehran, Iran

Summary

Frontend Developer with over 4 years of experience building scalable web applications using React, Next.js, and Vue/Nuxt. Passionate about writing clean, maintainable code while ensuring fast development cycles. Experienced in leveraging TypeScript to improve code safety and developer productivity. Skilled at delivering high-quality user experiences and collaborating effectively with cross-functional teams.

Experience

Freelance Frontend Developer

Dec 2024 - Present | Remote

- **Zumra Team:**
 - Responsible for timely and high-quality delivery of features.
 - Collaborated with the whole team, developing and reviewing merge requests.
 - Used **MUI**, **TypeScript**, **Leaflet**, and **WebSocket** for frontend development.
 - Led frontend efforts on a white-label **booking system** platform for flights, hotels, and tours, delivered to multiple clients with customized branding.
- **Diginext:**
 - Maintained and updated the corporate website (diginext.ir) using **Nuxt 3**, **TypeScript**, **Vuetify**, and **Tailwind CSS**.
 - Developed an AI-powered shopping assistant (assistant.diginext.ir) using **Zustand**, **Next.js App Router**, and **WebSocket** for real-time communication.
 - Delivered a landing page generator in a very short timeframe, boosting marketing efficiency.

Frontend Developer | Dino

Mar 2023 - Feb 2024

- Led a team of 5 frontend developers on multiple projects, including 1606.ir and tasaheel.net, ensuring timely delivery and high-quality code.
- Optimized codebase for **white-label solutions**.
- Guided junior developers and conducted thorough code reviews.
- Mentored and managed 2 interns, fostering their growth and team integration.
- Developed real-time communication features using **WebSocket**.
- Implemented Nuxt 3 with a layered architecture leveraging Git submodules to separate different products, improving reliability, maintainability, and streamlined code management.

Frontend Developer | DuelHouse (Remote)

Jan 2022 - Jan 2023

- Managed tasks and prioritized workload to ensure smooth project progress.
- Implemented UI designs using **Nuxt.js** and **Tailwind CSS**.
- Identified and implemented frontend solutions to enhance page performance on bottlenecked pages.

Frontend Developer | Basalam

Jun 2020 - Jan 2022

- Developed the CRM frontend panel using **Vue.js** and managed tasks and bug fixes to ensure timely delivery.
- Performed tasks across most Basalam products using **Nuxt.js**, **Sass**, and **jQuery**, collaborating directly with designers.
- Collaborated with the Basalam SEO team to optimize web content and improve search rankings.

Full Stack & Backend Developer | Basalam & Apco Pars

Oct 2015 - Aug 2020

- Developed backend and frontend features using **Laravel** and **Vue.js** for **Basalam**.
- Implemented a **CRM panel** using **PHP**, **HTML**, and **Bootstrap** for **Apco Pars Company**.
- Developed modules for the **Moodle Learning Management System (LMS)** at **IRBI University**.
- Contributed to several minor projects, supporting both backend and frontend development.
